FROM ACROSS THE SEA.

THE OFFICERS ENGAGED IN THE SPANISH REVOLT

Condemned to Death-The Situation in Bulgaria Not Satisfactory to Russia-Notes.

Lospos, September 21.-Mr. Gladthe peristently repeated report that he is about to join the Catholic church. He rays: "The statement that I intend to become a Roman Catholic is a ravival of a miserable falsehood, re-produced from time to time without a shadow of evidence for baris, and is unworthy of notice until it assumed a character very different from a merely calumnicus invention.

Arrested on a Charge of Forgery. Duniis, September 21. - Patrick Faye, a brother of Charles Joseph Fave, who was a member of Parliament for County Cavan for the eleven years preceding the last year, and at present a magistrate for Dublin county, has been arrested in this city on a charge of forgery.

The Spanish Revolt. Madrid, September 21 .- All of the officers implicated in yesterday's at-tempt at revolution have been condemued to death. A band of rebels at Ocens, in the province of Toledo, killed their commanding officer and then returned to allegiance and prayed for mercy. The common soldiers who took part in the uprising generally repent their folly today and blame their officers for leading them astray. The soldiers are everywhere yielding to the authorities. In the province of Toledo two bands of rebels, however, still hold out. They are trying to reach the Gwadarraman mountains and a force of loyal troops has been sent in pursuit of them. The city is

Not Political, but Financial. Paris, Sep'ember 21. - The Gaulois publishes an interview with Senor Marlos, President of the Spanish Congrees, in which he says that Sunday night's revolt was not political, but purely financial, inspired and fomented by a Bourse speculator.

The Recent Coup d' Etat.

Soria, September 21.—The commit-tes appointed to examine into and reupon the circumstances of the recent coup d'etat have concluded their investigations. They pronounce M. Karave off, Nikoforoff and Zinkoff jointly criminally responsible for the affair, and recommend that all three be suspended from psrliamentary immunity. The Sobranje at its next meeting will decide what further steps, if any, shall be taken against the three declared conspirators.

Unfavorable Signs for the Future. St. Patersburg, September 21.—The Journal de St. Peterburg says: The news from Bulgaria is in no wise satisfactory. It would have been better by far, if possible, to have ignored the past. Every day produces un-timely manifestations. It is notably the intention of the Bulgarian Government to court martial the actors in the recent events. Such indications do not po sess favorable signs for the

The Case of Ion Perdicaris.

Tangier, September 21.—The diplo-matic corps here have held several meetings to discuss the case of Ion Perdicaris, a resident American citizen, who has been imprisoned by the American Consul, F. Matthews. Mr. ment is without just cause and was ordered in revenge for an official investigation of the Consulate brought about by his charges against it.

BURR'S DOUBLE DEALING In the Presidential Election in 1801 Ceming to Light,

Rondour, N. Y., September 21 -The Freeman will publish tonight the contents of a bundle of letters from Agron Burr to Peter Von Gassbeck, New York, that were found by C. P. Carler, in Kingston, yesterday. Political scheming is disclosed. One of the letters throws light upon the notable contest for the Presidency be-tween Burr and Jefferson, in 1801, when the matter of choice was thrown into the House of Representatives. Burr claimed, after Jefferson had been chosen President, that if he (Burr) had had an equal number of votes with Jefferson he would have utterly disclaimed all competition, as he had no desire to be instrumental in counteracting the wishes and expectations of the people of the United States. Those sentiments were for the public. On the other side, it appears from a letter, upon the back of which was written "Private Instructions," that secretly he had other designs. Peter von Gaa-beck was a politician of con-siderable influence, and a member of Congress. With "Private Instructions" was found a paper containing a sort of cipher, by which the letters of the alphabet were to be used to indicate certain names. Burr adds to one of his letters: 'Speak of yourself in the third person when you wish it to be conceased that you are the person in question."

THE UTAH COMMISSION

In Session at Chicago-Preparing the Annual Report.

CHICAGO, September 21.—The Utah Commission, s-lected under the pro-vision of the Edmunds law in 1882, began a ression here this forenoon. The object is to prepare the annual report for the year past to present to the President by October 1st. The specific duty of this commission is to conduct all elections in Utah, including the appointment of registration offi-cers and a Board of Canvassers. It takes in the city and town elections as the county and Territory. Mr. Carlton, the chairman, states that the Edmunds law, so far as it has been effective, is doing away with illegal voting, the law prohibiting a polygamist or one who indulged in unlawful cohabitation to vote, and that the courts of justice during the past eighteen months had convicted 100 offenders. In this sense, he said, the law was a success; but how far it has made the Mormon give up his creed is another question

About to Consolidate.

to contolidate the Amalgameted Associstion of Mire s and Mine Laborers with the National Federation of Miners, which is also a branch of the Knights of Labor. State President Harris and A. Cestello, of the Amalgamated Association, attended the recent convention of the National Federation of Miners at Indianapolis, and have returned to this city with a proposition for consolidation which they will present to the various lodges of their organization within the next two or three weeks. The proposition is re-garded favorably by these gentlemen, and it is thought it will also meet the approval of a majority of the lodges.

THE MEN OF NEW YORK

WHO WITH MILLIONS AND POWER,

Are Shaping the Bestinies of the Metropolis of the United hintes -The Vanderbilts.

New York le ter to the Philadelphia Times: Stand for ten minutes on Broadway to lay and watch the rumpled river of humanity rush along in the sunlight. There goes a middle-aged, swartby man, who strides along with a quiex, swinging step; brows knitted in bunches, hands half clenched, dark eyes bent on the ground. It is Cornelius Vanderbilt, the richest man in the world. Not the richest man in the world. Not one in ten thousand of the moving multitude knows bim. There is a rumor in the crisp sir today that Mr. Vanderbilt is likely to be a bidder for the Broadway reliway fracehise when it is put up at aucion. The only thirg that the Fourth avenue line needs is the track on Breatway to make it the most perfect and most valuable horse railway in the world. The directors of the Vanderbilt system have already discussed the matter quite unofficially, but the two Vanderbilt brothers have not yet been

any of their competitors, for not only can they show \$10,000,000 to anybody else's one, but the Vanderbilt horse and steam railway constructions would give it a greater value than would any other possible arrangement.

Imagine the richest man in the world controlling the richest thoroughfare in the world! Think of Cornelius Vanderbilt as the successor of Jaks Sharp! One a thick necked, vulgar and grasping lobbyist, contemptuous alike of public opinion and public honor; the other a lefty minded phil-anthropic gentleman, full of patriotism, enterprise, energy and honesty, who would scorn to connive at the purchase of official conscience. If the compe-tition is fair and there are no public servants to be bought it is not rash to ssy that the Vanderbilts will take a hack at the Broadway pie. Here comes a tall, raw boned man

They could afford to bid higher than

with rosy features and a greasy smile. He softly rubs his palms together as he springs from foot to foot. It is Lawson Never-get-left Fuller, a cross between Demosthenes and P. T. Barnum, the man who intends to devote the rest of his life to the project of building a gridiron of cable railways all over New York.

See Bob Ingersoll's ruddy countenance bobbing up and down in the crowd. The old man is getting very fat and the use of iron rimmed spectacles is not an improvement. A little bird with a 40 cent breath and an in- a little over 20 per cent. extinguishable passion to become a commissioner of comething or other tells me that Ingersoll is now prepar-ing a lecture on Shakespeare, to be delivered this winter.

That sprightly, well-cet gent'eman who crosses at the postoffice, and strokes his snowy beard as he smiles at a passing friend, is Charles A. Dana.
If you should look in his het ten to
one you would find pasted in the
crown of it "Turn the rescals out" If you look over there where John

L. Sallivan stands arguing with Joe Coburn on the steps of the Asior House, you will see the man who is maraging the idiotic boom for Henry George as mayor. What a pity that such an able man as Henry George should allow himself to be sacrificed by the horde of ignorant ingrates who call themselves workingmen. The labor vote of New York is a myth. Honest, able and unselfish men have allowed themselves before now to be tricked into accepting a nomination at the hands of what looked like 50,000 workingmen. They have thrown all other some resemblance in appearance, style considerations to the winds and have or name upon the market, in order to boldly stepped to the front as advocates of the labor cause. On election day Cream Balm. Don't be deceived. Buy they were invariably descrited and disgraced. I don't care how strong a man may be, if he is fool enough to accept a nomination on the labor ticket he will come out of the experience with a taint of anarchism or socialism upon his name. Ingratitude, thy name is the labor vote!

Warehouse Caved In.

CHICAGO, ILL., September 21 .- The four story importer's warehouse of Wal lace, Wakem & Co., situated near North Clark street crossing of the Northwestern railway tracks, collapsed early yesterday morning. The north wall seems to have been inadequate to the strain, and bulged out until separated from the joists below and roof trusses above, when it fell, carrying a portion of the roofing with it. The fourth floor at once gave way and crashed through each succeeding floor below. The intenior of the building is a total wreck to all appearancee. The damage to storage, which must be great, has not yet been estimated. The building cost over \$20,000. The contents were valued at over \$10,000,000, consisting principally of tea, coffee and sugar.

The Suspended San Francisco Ciothiers.

NEW YORK, September 21 .- Judge Donohue, of the Supreme Court, has granted two more attachments against the property in this State of J. Baum & Co., the suspended San Francisco clothiers. One was obtained by Geo. W. Page, assignee of the National Park Bank, upon a claim of \$11,353, on money loaned, which was due in June last. The other was granted in a suit brought by the Bank of California, through their agents in this city, Ludlow & Co., to recover \$25,000, the value of two bills of exchange made by Baum & Co. during the last month, which was taken by the bank, pay-ment of which was refused when pretented for acceptance.

The Tressury Department has issued a circular to customs officers in regard to the importation of books copy-righted in the United States, which prescribes as follows:

In order that owners of works copyrighted in the United States, and subject to forfeiture, not only to the United States, but to such owners, may avail themselves of the protection of their rights given by the law, they must file with collectors of customs duly authenticated certificates of such ownership. On importation of any books, whether by mail or otherwise, which are covered by any such certifi-cate and the importation of which is not consented to by the owner of the copyright, to the end that the lat er may take the steps necessary for their forfeiture to him, books covered by such certificates will not be admitted to an entry on behalf of the importer, but it will be the duty of the collector to request the District Attorney to intervene for the duties in any proceeding which may be just tuted for their forfeiture. Decision No. 7654, of the 26th of July last, is hereby revoked so far as it declares importations of books in violation of American copyrights not forfeitable under the

The Removed Judge of Alaska. Washington, September 21.-Ju-t before the adjournment of Congress the Senate Judiciary Committee made a report, which was adopted by the Senate, in the case of Ward McA lister, jr, who was removed from the office of Judge of Aleska by the President. After a full investigation the committee found that the Judge had always heen a faithful and efficient officer; that there was nothing in the case calculated to place discredit upon him, either as an official or a man, and that the removal was for political reasons only. It was the intention of the committee to have removed the injunction of secrecy from the report, but in the hurry of the clesing hours of the ses sion this was forgottan, and the facts have only just come to light.

Cost of the Star Route Service. Washington, September 21.-Fig-Second Assistant Postmaster General show that the cost of the Star Route service during the last fiscal year was \$5,414,804, a decrease of \$62,623, or 1.57 per cent. as compared with the preceding fiscal year. The steamboat service was also reduced in cost during the year from \$563,002 to \$446,419, or

This shows an increase in the use of gold certificates, and a decrease in the use of United States notes in payment of customs dues.

Catarrh!

WONDERFUL TO RELATE!

"FOR FORTY YEARS I have been a victim to CATARRH—three-fourths of the time a sufferer from EXCRUCIATING PAINS ACROSS MY FOREHEAD AND MY NOSTRILS. The discharges were so offensive that I hesitate to mention it, except for the good it may do some other sufferer. I have spent a young fertune from my earnings during my forty years of suffering to obtain relief from the doctors. I have tried patent medicines—every one I could learn of—from the four corners of the earth, with no relief. And AT LAST (87 years of age) have met with a remedy that has cured me entirely—made me a new man. I weighed 129 pounds, and now weigh 146. I used thirteen bottles of the medicine, and the only regret I have is, that being in the humble walks of firs I may not have influence to prevail on all catarh sufferers to use what has cured me—Guinn's Pioneer Blood Renewer Guinn's Pioneer Blood Renewer
